FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

Ms. Donna Searcy
Secretary
F.C.C.
Washington, D.C. 20554

Dear Ms. Searcy,

I am opposed to the proposed cut in bandwidth of radios operating in the 72 to 76, 150 to 174, 421 to 430 and 450 to 512 Mhz bands; as proposed in F.C.C. Notice of Proposed Rule Making number 88-288 released in October 1982 (referred to as "Frequency Refarming").

If not resolved the proposed cut in bandwidth 450 to 512 Mhz bands will result in what TJC estimates to be a major cost increase, creating an unnecessary burden which the taxpayer will ultimately have to shoulder. Additionally, think of the problems police officers would have responding to emergency radio transmissions affected by "bleed over" from unwanted signals of those assigned to adjacent channels.

The college and I would very much appreciate your assistance on this issue.

Respectfully submitted,

W.M. Horton
